
Appendix C: Youth Informed Assent for Services

What Is This Evaluation?

This is an assessment to understand your experiences so I can make recommendations.

What Will This Evaluation Be Like?

I will ask you and/or your caregivers questions and ask you to fill out surveys. I may also ask you to do things and ask other people about you, with your and your caregiver's permission. Please be as open as you can. If there is anything you do not want to tell me, please say so. At the end, I will write what I have learned. I will share the paper with you and your caregivers.

Confidentiality

I keep most things you tell me private, but your caregivers can know what we discuss. So, we will agree on what we will share with them before we begin. Some things are not confidential. I might have to share information if:

1. I believe you are in danger of hurting yourself or someone else.
2. You share information about a child or adult who cannot keep themselves safe.
3. The court tells me I have to.

You can ask me to share information with someone else by having your caregiver(s) sign a form.

Attendance

Attendance is important. Please tell me if you need to cancel. If I need to cancel, I will tell you.

Emergencies

In the case of an emergency, call **988** or go to the **Emergency Room**.

Interpretation

I may speak with you through an interpreter. Interpreters keep all communication confidential.

Telehealth

I can provide assessment services on a video call if your family agrees. Please join from a private space free from distractions. If you have any technical issues, please contact me.

Signature

Your signature says you understand and agree. If you have questions, please ask me.
